Quality Vision Care At Great Savings For Retirees & Their Families

How The Plan Works

Dear Retiree Member,

Providing quality health care benefits at a reasonable cost is among the greatest challenges we face at UUP.

We have always been deeply concerned for our retired members and strive to design programs that save you valuable dollars.

UUP is proud to offer you, our UUP Retiree members, the UUP Retiree Vision Program. This Program, through Davis Vision, uses the same panel of participating network provider offices that you enjoyed as active members and allows you to obtain vision care services and purchase your vision wear at wholesale costs. Payment for these services can be made through the use of your credit card, personal check or money order.

Please take a moment to review this brochure which outlines the Program. UUP is committed to continuing to work to provide health care savings for you and your family.

Thank you for your continued interest and membership in UUP.

Sincerely,
William E. Scheurman
UUP President
